

May 7, 2021

Greetings Families and Team,

We have been informed that one of our team members tested positive for COVID 19. This team member had minimal exposure to our other team members and residents, however this team member has been removed from the schedule until they complete their quarantine period. The VDH has recommended that we continue to monitor residents and team members for symptoms related to COVID 19 and test as needed (if symptoms are present). We currently have 99% of our resident population vaccinated.

Team members, please continue to monitor your health and take note of any symptoms of COVID-19. If you are experiencing any COVID related symptoms, you should let us know right away and see your healthcare provider.

We share this information with you not to alarm you but to keep you as informed as possible.

Please know that we are always here to support our families and team members. Please do not hesitate to give me a call if you have any questions.

We are in this together!

Sincerely,

Christine Wright
Executive Director
