

RoseWood VILLAGE

ASSISTED LIVING
AND
MEMORY CARE

June 3, 2022

Greetings Residents, Families and Team Members,

Yes, it is your Rosewood Village, Greenbrier Directors keeping our promise of keeping you informed about the Covid-19 status in our community. Here is the most updated information as of today, which stems from the latest retesting which took place on May 26, 2022. My apologies for just getting this letter to you, but I was waiting on response from the health department before sending out conclusive information. In short, after that horrid report of having over twenty residents and staff positive with covid, we are pleased to announce that we have no new cases of positive covid with residents or team members. The health department has declared the outbreak status has ended!

With that being reported, we are also sharing that we are moving forward with our protocol of trying desperately to keep covid out of the building. We continue to mandate that our team members wear masks and use universal precautions. We also mandate that all visitors wear masks while visiting our community, which is our policy.

Again, we share this information to keep you informed while we continue to go through this dreaded pandemic. We ask for your continued patience as we work through this situation as best as we know how, given none of us has been through it before. Please contact me if you have any questions or comments.

Sincerely,

Sarah Copeland
Executive Director
